## GTA Pty Ltd

### *Innovation*

GTA Pty Ltd, trading as GLI Australia, operates under License to Gaming Laboratories International based in the United States. It provides specialist services to Manufacturers, Casino Operators and Regulators in the testing and certification of electronic gaming equipment and systems in Australia and New Zealand.

### *Opportunity*

As software complexity grows, protocol implementations become more difficult and games and pay tables more complicated. GTA is constantly developing new automated testing tools and methodologies as well as updating the skills of its workforce to ensure every piece of gaming equipment it tests operates in a correct manner.

### *Commercial Achievements*

GTA has grown to become the leading approved testing facility in the Australasian region with a turnover in excess of \$8m. It has laboratories in Sydney, Adelaide and Melbourne and employs over 60 staff. All officers are accredited by NATA as meeting the technical competence requirements of the internationally recognized standard ISO / IEC 17025.

GTA is wholly owned by ITEK and ITEK provides management support to the business and direction through its board positions.
